

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning on page 9, line 1 with the following paragraph:

FIG. 4 illustrates a Bae I/U1 construct of the invention (SEQ ID NO. 11). The recognition site of the Bae I enzyme is underlined, and the 28 base pair fragment which is excised in both strands is shown in bold. In addition, Bae I cleaves an additional five nucleotides 3' of the bold region in one strand, and an additional five nucleotides 5' of the bold region in the other strand. These sites are indicated with slashes.
